PROFESSIONAL SUMMARY

Python Developer with a strong foundation in Data Structures, Object-Oriented Programming, SQL, and problem-solving. Passionate about developing clean, efficient, and scalable software solutions. Seeking an entry-level Python Developer role where I can apply my programming skills, continue learning modern technologies, and contribute to real-world software development.

EDUCATION

Master of Computer Applications (MCA) — RJS First Grade College, Bangalore City University
Pursuing (Expected Graduation: 2026)

Bachelor of Computer Applications (BCA) — Shree Medha Degree College, Vijayanagara Sri Krishnadevaraya University
CGPA: 7.99 / 10

TECHNICAL SKILLS

Languages: Python, C, SQL, HTML, CSS

Libraries: NumPy, Pandas, Scikit-learn, Matplotlib

Core: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering

Tools: Git, GitHub, VS Code, Linux, Jupyter Notebook

Learning: FastAPI, TensorFlow, LangChain, Machine Learning

PROJECTS

Stock Trading System | Python, Tkinter, SQLite

- Developed a stock trading simulation with secure login, portfolio management, and transaction history.
- Designed a normalized SQLite database and implemented CRUD operations.
- Built real-time stock price simulation and an admin panel for stock management.

Memory Match Game | PHP, HTML, CSS, JavaScript

- Built a browser-based memory card game with responsive UI and interactive gameplay.
- Implemented session management, card shuffle logic, move counter, and win detection.

CERTIFICATIONS

- Python Fundamentals for Beginners — Great Learning Academy
- TCS iON Career Edge – Young Professional

ACHIEVEMENTS

- Active GitHub contributor maintaining Data Structures and Algorithms solutions with clear documentation.
